Experience

Callsmaster Services LLP — New Delhi *Oct 2023 – Present*
Roles and Responsibilities:

- **Starting Role:-** Began as a Front-End Developer, creating and maintaining web applications using React.js and Next.js.

- **Expanded Role:-** Successfully designed and implemented a full-stack project, managing both front-end and back-end development using Next.js, ensuring seamless integration, optimized performance, and a cohesive user experience.

- API Integration: Integrated third-party APIs and services to enhance platform functionality and improve user experience, boosting customer satisfaction.

- Collaborated on a team project to develop and optimize the front-end of a CRM dashboard.

Projects

CRM Gym Dashboard *May 2024 – Present*

- **Technologies Used:- React.js, React Hook Form, Node.js, PostgreSQL, Redux, REST API, RazorPay.**

- Designed a user-friendly interface to manage gym members, including registration, profile updates, and membership renewals.

- Developed features for personalized workout schedules, enhancing client engagement.

- Implemented form handling and validation with React Hook Form and Yup.

- Collaborated with team members on code reviews and API integration using Git and GitHub.

Quick watch — Movie and Series Streaming Site *Dec 2024 – Present*

- **Technologies Used:- React.js, Next.js, Tailwind CSS, React query, RTK, React hook form, zod, MongoDB**

- Built a scalable movie streaming platform using Next.js and MongoDB, featuring dynamic content fetching and a seamless user experience.

- Designed a responsive UI with Tailwind CSS, ensuring a smooth and modern user experience across devices.

- Integrated user authentication and form validation using React Hook Form and Zod for secure and seamless user interactions. GitHub accounts, simplifying the platform's registration and login procedure.

YC Directory — Startup Idea Showcase Platform *Nov 2024 – Dec 2024*

- **Technologies Used:- React.js, Next.js, Tailwind CSS, Sanity, Auth.js**

- This project is an easy-to-use platform for submitting and exhibiting innovative startup ideas.

- Live Content API: Fetches and displays the latest startup ideas dynamically from Sanity's Content API, ensuring that the homepage is always up to date with fresh content.

- Seamless GitHub Authentication and Pitch Submission: Integrated Auth.js for effortless GitHub login and enabled users to submit startup ideas with titles, descriptions, categories, and multimedia links for easy sharing and promotion.

Education

- **Bachelor of Technology in Computer Science** – Krishna Engineering College, AKTU, Ghaziabad (2020 – 2023)

- **Diploma in Information Technology** – Integrated Institute of Technology, BTE Delhi, Delhi (2017 - 2020)

Achievements

Achieved Second Runner-Up position in Krishnathon 2022, demonstrating problem-solving skills and the ability to innovate in technology-driven solutions.
